Current Work and Working Papers

Current Work (unpublished)

- “Gender differences in beliefs about productivity-relevant skills”, with E. Brox and S.C. Wolter
- “Which Skills Matter Most for Early Labor Market Success?”, with R. Sartore
- “Skills Mismatch: Measurement and Consequences”

Working Papers

- Goller, Daniel, Enzo Brox, and Stefan C. Wolter (2026) “Imperfect Self-knowledge about Skills and Skill Mismatch.” *Swiss Leading House Working Paper*, No. 253.
- Späth, Maximilian, and Daniel Goller (2023). “Gender differences in investment reactions to irrelevant information.” *CEPA Discussion Papers*, No. 67. DOI: 10.25932/publishup-60635.

Published Work

2026

- Brox, Enzo, and Daniel Goller (2026). “Tournaments, Contestant Heterogeneity and Performance.” *Journal of Political Economy: Microeconomics*, 4 (2), 583–619. DOI: 10.1086/735786.
- Goller, Daniel (2026). “Reaching for the stars from the top of the ladder? Rank, gender, and future aspirations” *Economics Letters*, 265, 113015. DOI: 10.1016/j.econlet.2026.113015.

2025

- Goller, Daniel, and Stefan C. Wolter (2025). “Reaching for gold! The impact of a positive reputation shock on career choice.” *European Economic Review*, 175, 105017. DOI: 10.1016/j.eurocorev.2025.105017.
- Goller, Daniel, Chiara Graf, and Stefan C. Wolter (2025). “Virtual vs. in-person career fairs: the impact on search activity and diversity.” *Applied Economics Letters*, 1–4. DOI: 10.1080/13504851.2025.2462708.
- Goller, Daniel, Christian Gschwendt, and Stefan C. Wolter (2025). “This time it’s different – Generative artificial intelligence and occupational choice.” *Labour Economics*, 95, 102746. DOI: 10.1016/j.labeco.2025.102746.
- Goller, Daniel, Michael Lechner, Tamara Pongratz, and Joachim Wolff (2025). “Active labor market policies for the long-term unemployed: New evidence from causal machine learning.” *Labour Economics*, 94, 102729. DOI: 10.1016/j.labeco.2025.102729.

2024

- Goller, Daniel, and Maximilian Späth (2024). “Good job! The impact of positive and negative feedback on performance.” *Sports Economics Review*, 8, 100045. DOI: 10.1016/j.serev.2024.100045.
- Goller, Daniel, and Sandro Heiniger (2024). “A general framework to quantify the event importance in multi-event contests.” *Annals of Operations Research*, 341(1), 71–93. DOI: 10.1007/s10479-023-05540-x.

2023

- Goller, Daniel, Andrea Diem, and Stefan C. Wolter (2023). “Sitting next to a dropout: Academic success of students with more educated peers.” *Economics of Education Review*, 93, 102372. DOI: 10.1016/j.econedurev.2023.102372.
- Goller, Daniel (2023). “Analysing a built-in advantage in asymmetric darts contests using causal machine learning.” *Annals of Operations Research*, 325(1), 649–679. DOI: 10.1007/s10479-022-04563-0.

2021

- Goller, Daniel, and Stefan C. Wolter (2021). “Too shocked to search: The COVID-19 shutdowns’ impact on the search for apprenticeships.” *Swiss Journal of Economics and Statistics*, 157, Article 6. DOI: 10.1186/s41937-021-00075-z.
- Goller, Daniel, Michael C. Knaus, Michael Lechner, and Gabriel Okasa (2021). “Predicting match outcomes in football by an Ordered Forest estimator.” In Ruud H. Koning and Stefan Kesenne (eds.), *A Modern Guide to Sports Economics*, Chapter 22, pp. 335–355. Edward Elgar Publishing. DOI: 10.4337/9781789906530.00026.

2020

- Goller, Daniel, and Alex Krumer (2020). “Let’s meet as usual: Do games played on non-frequent days differ? Evidence from top European soccer leagues.” *European Journal of Operational Research*, 286(2), 740–754. DOI: 10.1016/j.ejor.2020.03.062.
- Goller, Daniel, Michael Lechner, Andreas Moczall, and Joachim Wolff (2020). “Does the estimation of the propensity score by machine learning improve matching estimation? The case of Germany’s programmes for long term unemployed.” *Labour Economics*, 65, 101855. DOI: 10.1016/j.labeco.2020.101855.
